MARKETS

Stock Session Dull.

NEW YORK, March 31.—The session of the stock exchange today was relatively dull and professional, but the trend of prices was unmistakably upward, though gains generally on realizing for profits in the final hour.

Demand loans again opened at a per cent and rose again, opened at a per cent and rose again, and the market was quiet except for renewals into the year's second quarter.

Foreign exchange retained all of its recent uncertain characteristics, the London rate being very likely probably as a result of further gold imports, but French and Italian bills were heavy, tires declining in new discount of 75 to 77 to the dollar, but advancing slightly at the close.

In the main essentials the stock market covered the ground made familiar by the more speculative operations of the past few weeks. Commodity prices were still higher, except a reversal of the prominent motors, steel and equipments. Stocks led at a gain of 21 points to the new high of 391. Crude oil was next, rising 75 to 80 cents, but advanced to 80 cents. Gold advanced to 100 dollars, and Vancouver at a new gain of 5% to 7%, also registered a new high quota.

Additional features of strength were General Motors, International Motor, Baldwin Locomotive, sugars, oils and tannins and the stocks of the various express companies. Sales amounted to \$800,000 shares.

Long United States bonds rose 14¢ on call and 49 rose 14¢.
